1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-30, drawn to an aerial gun pod mounting assembly.

Group II, claim(s) 31-35, drawn to a method of modifying an aerial gun pod assembly.

Group III, claim(s) 36-41, drawn to an aerial gun pod mounting assembly in combination with a computer control system.

2. The inventions listed as Groups I, II, and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The groups [I vs. II] and [II vs. III] lacks a common claim feature that would distinguish of the prior art. Only groups I and III contain a common claim feature and this feature does not distinguish over the prior art. Consequently, this feature cannot be considered to be a special technical feature. At such time that evidence is provided contrary to this position and when all claims of groups I and III contain such special technical feature, groups I and III will be appropriately recombined.
